

### REMARKS

This application was filed electronically on March 29, 2006. After reviewing the specification as filed on private PAIR immediately after filing, Applicants' representative noticed that Tables I-A through V on pages 34-75 of the specification, which were originally prepared in landscape orientation, had been inadvertently converted to portrait orientation when the specification was printed to the PDF writer, thereby making the chemical formulas contained in these tables less readable. Applicants submit herewith replacement Tables I-A through V merely to change the orientation of the tables from portrait to landscape. No new matter is added by this amendment.

It is believed that no fees are required in connection with this paper; however, should any fees under 37 C.F.R. §§ 1.16 to 1.21 be required, the Commissioner is hereby authorized to deduct said fees from Fulbright & Jaworski Deposit Account No. 50-1212/CHEP:017US.

Respectfully submitted,
